## PROFILE

I am an aspiring Computer Science student with a strong educational foundation and a versatile skill set. I possess a deep interest in coding, web development, mobile app development, and graphic design. My journey in the world of technology is driven by a genuine eagerness to learn and grow. My experiences in coding competitions and internships have allowed me to develop a passion for tackling challenges head-on and achieving meaningful results.

## EDUCATION

<b>High School, Divine Public School</b> CBSE Board	2018 66.2%
<b>Diploma, Vikas Institute Of Engineering And Technology</b> Computer Science And Engineering	2018 – 2021 82.9%
<b>Bachelor Of Technology, Buddha Institute Of Technology</b> Computer Science	2021 – present 78% (Appearing...)

## SKILLS

<b>C</b> C Programming Language	<b>Java</b> Java Programming	<b>Python</b> Python Programming
<b>Android Studio</b> Android App Development using Java	<b>Adobe Photoshop</b> Graphics Designing using Photoshop	<b>Adobe Illustrator</b> Vector Designing using Adobe Illustrator
<b>Graphics Designing</b> Social Media Graphics Designing using Photoshop, Illustrator, Davinci Resolve	<b>HTML</b> Web Development	<b>CSS</b> Web Development
<b>JavaScript</b> Web Development	<b>Figma</b> UI Designing	

## PROJECTS

<b>Web Based Encryptor and Decryptor, A User-friendly Encryptor Decryptor tool on your device.</b> <a href="#">🔗</a> Developed a static Web-based application which is used to encrypt or decrypt and try out some of the popular cryptographic algorithms on your own device. The User Interface is dynamic and responsive according to different screen size using <b>HTML, CSS, JavaScript and Bootstrap</b> .	2022
--	------

<b>Voterium, Blockchain Based E-Voting System</b>  Developed a Blockchain Based Voting System to create, maintain, and conduct Electronic Voting. The Technologies used for User Interface are <b>HTML, CSS, JavaScript and Node.js, SQL</b> for Backend. We also used <b>MetaMask (Browser Extension), Ganache, Solidity</b> and <b>Truffle</b> for Blockchain.	2023
<b>Eduzo, Education Zone - Android Application</b>  A Course-Ending Project made after the Summer Training of 'Android' by ShapeMySkill. An Interactive Quiz App designed to enhance learning through quizzes and educational challenges. With its user-friendly interface and informative content, Eduzo aims to make learning enjoyable and accessible, promoting knowledge retention and growth.	August 2023
<b>ZappChat, Chatting Application</b>  An Android Chatting Application with real-time updates made using Android Studio, Java, Firebase	September 2023 – present

## ACHIEVEMENTS

---

<b>Winner</b> Computer Science 3rd Year Division for the project “Voterium” in Tech Yuva, BIT 2023	2023
<b>Winner</b> “Game of Codes”, AKTU Zonal Tech Fest, 2023	2023
<b>Recognition</b> for participating in AKTU State Level TLM Tech Fest, Lucknow 2023	2023
<b>Winner</b> “Read My Mind” Coding Event, Tech Wizard, BIT 2023	2023
<b>Runner Up</b> Computer Science 2nd Year Division for the project “Web Based Encryptor and Decryptor” in Tech Yuva, BIT 2022.	2022
<b>Runner Up</b> Coding Competition organized in Tech Wizard, BIT 2022	2022

## CERTIFICATES

---

<b>Android Training / Internship</b>  Summer Training from ShapeMySkill
