PROFILE

I am an aspiring Computer Science student with a strong educational foundation and a versatile skill set. I possess a deep interest in coding, web development, mobile app development, and graphic design. My journey in the world of technology is driven by a genuine eagerness to learn and grow. My experiences in coding competitions and internships have allowed me to develop a passion for tackling challenges head-on and achieving meaningful results.

EDUCATION

High School, Divine Public School CBSE Board	2018 66.2%
Diploma, Vikas Institute Of Engineering And Technology Computer Science And Engineering	2018 – 2021 82.9%
Bachelor Of Technology, Buddha Institute Of Technology Computer Science	2021 – present 78% (Appearing...)

SKILLS

C C Programming Language	Java Java Programming	Python Python Programming
Android Studio Android App Development using Java	Adobe Photoshop Graphics Designing using Photoshop	Adobe Illustrator Vector Designing using Adobe Illustrator
Graphics Designing Social Media Graphics Designing using Photoshop, Illustrator, Davinci Resolve	HTML Web Development	CSS Web Development
JavaScript Web Development	Figma UI Designing	

PROJECTS

Web Based Encryptor and Decryptor, A User-friendly Encryptor Decryptor tool on your device. 🔗 Developed a static Web-based application which is used to encrypt or decrypt and try out some of the popular cryptographic algorithms on your own device. The User Interface is dynamic and responsive according to different screen size using HTML, CSS, JavaScript and Bootstrap .	2022
--	------

Voterium, Blockchain Based E-Voting System  Developed a Blockchain Based Voting System to create, maintain, and conduct Electronic Voting. The Technologies used for User Interface are HTML, CSS, JavaScript and Node.js, SQL for Backend. We also used MetaMask (Browser Extension), Ganache, Solidity and Truffle for Blockchain.	2023
Eduzo, Education Zone - Android Application  A Course-Ending Project made after the Summer Training of 'Android' by ShapeMySkill. An Interactive Quiz App designed to enhance learning through quizzes and educational challenges. With its user-friendly interface and informative content, Eduzo aims to make learning enjoyable and accessible, promoting knowledge retention and growth.	August 2023
ZappChat, Android Chatting Application  An Android Chatting Application with real-time updates made using Android Studio, Java, Firebase	September 2023 – present

ACHIEVEMENTS

Winner Computer Science 3rd Year Division for the project “Voterium” in Tech Yuva, BIT 2023	2023
Winner “Game of Codes”, AKTU Zonal Tech Fest, 2023	2023
Winner “Read My Mind” Coding Event, Tech Wizard, BIT 2023	2023
Winner Python Bytes Coding Event, Buddha Sharad Mahotsav, BIT 2023	2023
Recognition for participating in AKTU State Level TLM Tech Fest, Lucknow 2023	2023
Runner Up Computer Science 2nd Year Division for the project “Web Based Encryptor and Decryptor” in Tech Yuva, BIT 2022.	2022
Runner Up Coding Competition organized in Tech Wizard, BIT 2022	2022

CERTIFICATES

Android Training / Internship 
 Summer Training from ShapeMySkill
