TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Material UI, JavaScript, TypeScript, HTML, CSS

Backend: Node.js, Express.js, Spring Boot, FastAPI, RESTful APIs, Microservices

Databases: MS SQL Server, PostgreSQL, MySQL, MongoDB, Firebase

Cloud & DevOps: Microsoft Azure, AWS, GCP, Docker, GitHub Actions, CI/CD, Linux/Unix

Data Engineering: ETL Pipelines, pandas, NumPy, Matplotlib

Security & Standards: OAuth 2.0, RBAC, SOAP, SDLC, Agile

Tools & Concepts: Git, Postman, Swagger, IntelliJ IDEA, System Design, Cloud Architecture

EXPERIENCE

Software Development Engineer - 1

Nov 2023 – Present

Tranzita Systems

Lucknow, India

- Led and delivered **2–3 concurrent Full-Stack projects** spanning DevOps, Cloud Infrastructure, System Design, and Web Development, owning end-to-end **SDLC**, designed **CI/CD pipelines** (GitHub Actions, Docker) reducing deployment time by **35%+** with **zero-downtime releases**.
- Led **R&D initiatives** building **scalable microservices** and **RESTful APIs** (Python, Node.js, SQL) applying **OOP & distributed systems** principles, built **ETL pipelines** reducing manual effort by **40%** and improving data availability for downstream analytics.
- Implemented **secure authentication, OAuth 2.0 (FedAuth / Azure AID), and RBAC** across web applications ensuring compliance with security best practices and access governance standards.

PROJECTS

Procter & Gamble (P&G) – Enterprise | *Azure, Python, Node.js, SQL, Docker, OAuth 2.0, CI/CD*

- Architected **cloud-based enterprise data applications** on **microservices architecture**, processing **millions of records daily** and serving **5+ global business units** via **role-based, persona-driven dashboards**.
- Automated **ETL workflows** via **serverless Azure Function Apps** for enterprise data extraction, transformation, and loading, eliminating **100% of manual data bottlenecks** and ensuring **data integrity at scale**.
- Engineered a **Survey & Analytics platform** with **NLP-powered visualizations** (word clouds, sentiment analysis) and dynamic data uploads, containerized via **Docker** with full **CI/CD automation**.
- Secured **3+ enterprise business units** using **multi-tenant IAM** with **OAuth 2.0** and **role-scoped access control (RBAC)** across the application portfolio.

Jaagruk Bharat – Scheme Portal | *Java Spring Boot, Next.js, PostgreSQL, AWS, Docker, REST API*

- Built a **large-scale citizen-facing platform** serving **100,000+ users** with **SSR** via **Next.js** for fast and improved **Core Web Vitals**, optimized **PostgreSQL queries** via indexing and caching, reducing **API latency** by **60%** under peak load.
- Deployed **containerized microservices** on **AWS** via **Docker** with **NGINX reverse proxy** enabling **load balancing, rate limiting, SSL termination**, and static asset caching for optimized delivery.
- Implemented **blue-green deployment strategy** achieving **zero-downtime releases, instant rollback capability**, and **seamless traffic switching**, ensuring **99.9% availability** for the platform.
- Designed **horizontal scalability and fault-tolerant architecture** supporting scheme discovery, eligibility verification, and application tracking for government welfare programs.

Mind Gauge – Psychometric Testing Platform | *Next.js, Node.js, MySQL, Markdown, Data Visualization*

- Designed a **full-stack assessment platform** from **300 to 1,000+ concurrent users**, delivering **high availability and low latency** via optimized **REST API architecture** and efficient database query execution.
- Engineered **multi-language (i18n) test delivery** with **Markdown-based dynamic question rendering**, enabling rich, accessible assessments for **diverse linguistic requirements** across web and mobile contexts.
- Developed **interactive analytics dashboards** with **real-time data visualization**, progress tracking, improving insight generation and engagement for students and administrators.

EDUCATION

Buddha Institute Of Technology

Bachelor of Technology in Computer Science & Engineering – 83%

Gorakhpur, India

Aug 2021 – May 2024
